

## ABOUT

For over 40 years, the Youth Shelter Program of Westchester, Inc., has been providing a home-like alternative to jail for young men awaiting disposition of various criminal charges. Conceived by a Westchester judge and school teacher who recognized the need for early intervention in the lives of young offenders, the YSOW was formally incorporated as a not-for-profit in New York in 1975. Its initial mission was to formulate a plan and solicit funds for a temporary shelter or residential facility for youth prior to trial.

## RESIDENTIAL PROGRAM

Our residential program is a 12 bed facility located in lower Westchester County, NY that serves over 150 young men ages 18-24 annually. The length of stay is determined by an individual's willingness to participate and their sentence/charges. During their stay at the youth Shelter our young men participate in structured programming that uphold these core principles, discipline, self respect and respect for others while promoting unity and teamwork.

## COMMUNITY AFTER CARE PROGRAM

Once a youth is discharged from our facility this is when our community aftercare team kicks in to ensure positive reintegration. Our community aftercare team provides ongoing case management and support for youth for a minimum of one year.

Our two program structures of residential and community aftercare are rooted in 5 major program elements: clinical, education, vocational, community services/volunteerism and family reunification. As these combined program elements allow us to holistically service our young men to restore, refine and reshape their future outlook.

These areas support appropriate reintegration of the residents back into the community and align with supportive services through our Aftercare program upon release.
